# Message from the co-chairs

Welcome to participate in PMAM 2015.

This year we have received 34 submissions from 12 countries. Each paper has been carefully reviewed by at least three reviewers. Though there are many good-quality submissions, we have to accept only 19 papers due to limited space. The acceptance rate of PMAM 2015 is 56%.

We would like to thank the following program committee members and external reviewers for their hard work during the Christmas and New Year holiday season. Without their support, PMAM 2015 would be impossible.

Program committee:
